Dear Peter,

Having worked with Metzger, Inc. many times, I am happy to supply an endorsement. Your firm's recent work for LP Ciminelli, Inc. on the above projects represents nearly 40,000 yards of Axminster woven wool carpet valued at nearly \$2.0M (two million dollars). These projects have once again proven how Metzger Inc.'s involvement provides our firm with a capable consultant.

Metzger, Inc.'s procurement and management program provided the following to these projects:

- Well managed supplier to supplier competition, open book through well authored RFP documents
- Access to data that allowed the most appropriate selections for cost and performance
- Names and contact data for supplier endorsed installation firms
- Extremely capable management of delivery, storage and insurance issues that overseas manufacturing adds to a project's complexity
- Professionally acting as the "go to" resource for all design sample and seaming diagram sign-offs, proactive coordination between the project architect, supplier and the contractors
- Generated installer bid packages formatted to collect and manage contractor guaranteed quantities

Bottom line is that Metzger, Inc.'s management of the complex scopes on these fast moving projects allowed our staff and the client piece of mind, knowledge that this scope was under control in a hectic environment.

With more projects on the horizon, Metzger, Inc. has delivered the value advertised and we will continue to retain your services in the future.

Sincerely,

Frank L. Ciminelli, II
Senior Vice President
